## PROFESSIONAL SUMMARY

---

Analytical and detail-oriented graduate with hands-on experience in software development, data analysis, and cross-functional team collaboration. Proven ability to gather and translate business requirements into technical solutions, support Agile project workflows, and improve operational efficiency. Skilled in backend and frontend development, database management, API testing, reporting, and process documentation. Adept at working with developers, product managers, and business stakeholders in fast-paced startup environments.

## TECHNICAL SKILLS

---

**Languages & Frameworks:** Python, JavaScript, SQL, Dart, PHP, FastAPI, React, Flutter

**Data & Visualization:** MySQL, MongoDB, Microsoft Excel, Google Sheets, Power BI

**Tools & Platforms:** GitHub, Postman, VS Code, Firebase, XAMPP, Draw.io

**AI & Productivity:** ChatGPT, Claude AI

**Professional Skills:** Communication, Team Collaboration, Critical Thinking, Time Management, Adaptability, Problem Solving

## EXPERIENCE

---

### Software Development Intern

Jul 2025 – May 2026

Vseek Ventures — Tamil Nadu, India

- Built and maintained features across multiple enterprise products in an Agile development environment.
- Collaborated with developers, product managers, and business stakeholders to gather requirements and deliver solutions.
- Performed API testing, debugging, and code reviews to ensure code quality and system reliability.
- Participated in requirement gathering, workflow discussions, project coordination, and sprint planning activities.
- Improved system reliability across 2 production applications and contributed to timely feature delivery.
- Analysed business requirements and supported effective coordination between technical and business teams.

## PROJECTS

---

### Verso – AI-Powered Geo Audit Platform

2025 – 2026

Business Visibility & Brand Analytics Platform | Python, FastAPI, React, MongoDB

- Built backend services and frontend workflows for an enterprise-scale AI platform that analyzes brand visibility data across geographic regions.
- Integrated third-party APIs, led debugging sessions, and delivered features across Agile sprints with cross-functional teams.
- Coordinated with developers and stakeholders throughout planning, testing, and implementation phases.
- Strengthened documentation, project coordination, and stakeholder communication skills in a fast-paced environment.

### Arogyavahan – Healthcare Management Application

2025

Patient Tracking & Healthcare Platform | Flutter, FastAPI, MySQL

- Designed database schemas and built application features for a healthcare platform used by medical professionals.
- Handled the full development lifecycle — from requirements gathering and design to testing and deployment.
- Collaborated with team members across multiple development activities and project milestones.
- Supported testing, issue tracking, and feature enhancement initiatives throughout the project.

### Personal Portfolio Website

2026

Interactive Developer Portfolio | React, JavaScript, CSS

- Designed and built a visually striking personal portfolio with dark editorial layout, animated skills constellation, and responsive sections.
- Implemented active navigation, theme toggle, and smooth scroll interactions for enhanced user experience.

## EDUCATION

---

### **B.E. Electrical and Electronics Engineering**

Nov 2022 – May 2026

*Karpagam Institute of Technology, Tamil Nadu, India | CGPA: 7.8 / 10*

## ADDITIONAL INFORMATION

---

- Strong interest in data-driven decision making, process optimization, business operations, and performance analysis.
- Continuously upskilling in advanced Excel, Power BI, SQL, business analytics, and process improvement methodologies.
- Experienced in requirement gathering, project tracking, cross-functional collaboration, and supporting business objectives.
